

Please fill out all the forms enclosed and return them to the surgery; your registration can take up to 2 weeks to complete and you will be notified when this has been done. If you need be seen <u>urgently</u>, please make the Receptionist aware and this process will be expedited for you.

HOW TO CONTACT THE DOCTOR

Urgent Care Appointments

For same day medical problems, please call Reception before 4.00pm to be given an appointment with our Acute Care Team.

Routine Appointments

For non-urgent medical issues, you can book in advance via Reception by calling 01458 250464 or submitting an Online Consultation Monday to Friday between 8.00am and 6.30pm. Our receptionists may ask you a series of questions to determine the type and length of appointment you need; this may not always be your GP but could be with a Nurse Practitioner, Musculoskeletal Practitioner or Physicians Associate for example. Your appointment may take place in person, via telephone or video consultation depending on your medical problem.

Online Consultation

An Online Consultation is a way to send a secure message to request help or advice or tell the doctor about your problem. The doctor may be able to deal with your query online; simply submit your query via our website and the reception team will book a slot for the Doctor to get back to you.

You can also submit a request to be booked for a routine appointment via this system if you prefer not to phone the surgery. Please be aware that this system should not be used for urgent same day medical problems; these should always come via phone.

What do I need to do now?

For submitting online consultations, please go to our webpage **www.langportsurgery.co.uk** and click on the blue box titled 'Online Consultations'. You can submit routine problems and query requests here. Please DO NOT submit urgent or same day quires through the online system.

If you do not have access to the internet or are struggling to submit your request, please do contact Reception on 01458 250464 where a receptionist will be happy to help you or book an appointment for you!

How long until I hear back?

We aim to respond to all online consultations within 3 working days; if you have not received a response in this time, please call reception.

STAFF USE ONLY

Text Message and Email communication

You will no longer receive text reminders unless you have already completed and returned a copy of this consent form. Parents/Guardians can receive text message communications for children until they turn 12 years old, after which they will be switched off automatically. When the child turns 15 they will have the option to provide their own contact number for text communications. This is to protect the confidentiality of young patients.

Declaration

I consent to the practice contacting me by text message or email for the purpose of providing information about my care and information about the surgery.

Please tick to indicate that you understand and accept the following:

Reminders by text are an additional service and they may not be sent on all occasions.

Patients remain responsible for attending appointments or cancelling them.

Patients can cancel the text message facility or email permissions at any time by contacting the practice

It can take up to five working days for the consent to be administered on our system.

Text messages and emails are generated using a secure facility however it is important to understand that they are transmitted over a public network onto a personal telephone and as such may not be secure; on some occasions the text message or email may include patient details, for example their name, which could enable an individual patient to be identified.

It remains the patient's responsibility to inform Langport Surgery if their mobile is lost or stolen or if their number or email address changes.

I agree to the practice storing my personal data on the secure text message and email software.

NHS Summary Care Record

Langport Surgery is supporting Summary Care Records and as a patient you have a choice.

What is the NHS Summary Care Record?

The NHS Summary Care Record is a short summary of your GP medical records. Its intention is to help clinicians in Accident and Emergency, 'Out of Hours' and other health services, that do not know your medical history but wish to provide you with safe, timely and effective treatment.

Essential details about your healthcare can be difficult to remember, particularly when you are unwell or have complex care needs. Having a Summary Care Record helps you recall vital information when receiving care. Only authorised healthcare professionals providing you with care in England, will be allowed to access your record, this is once they have asked your permission.

What medical information is included in the NHS Summary Care Record?

The Basic Summary Care Record contains basic information about:

- Allergies you suffer from
- Medication you are taking
- Any bad reactions to medicines you have previously taken

The Enhanced Summary Care Record contains additional information including:

- Your illnesses and health problems
- Operations and vaccinations you have had in the past
- How you would like to be treated such as where you would prefer to receive care
- What support you might need
- Who should be contacted for more information about you

Please tick a box and sign below:

Yes I want a Basic Summary Care Record	(Code as: 9Ndm)
Yes I want an Enhanced Summary Care Record	(Code as: 9Ndn)
No I do not want a Summary Care Record	(Code as: 9Ndo)
