

If you have gone through the menopause, it is important to get any **unexplained bleeding** or **unusual discharge** checked to rule out womb cancer

Menopause is defined as 12 or more consecutive months without a period

- If you are registered with a GP in Somerset, you can access our **new service directly** and if you are eligible we will contact you with an appointment.

For more information or to access the **Bleeding After Menopause service:**

Text the word **bleed** to **82228**, standard network charges apply.
